BOOK SYNOPSIS

Whether employed or not upon completing their college degree, most people experience a significant “culture shock” while transitioning from student to professional life. In *Life After College: Ten Steps to Build a Life You Love*, authors Tori Randolph Terhune and Betsy A. Hays show recent, and not so recent, college graduates what they can do to successfully transition into this new stage of their lives. Terhune, a recent college graduate, and Hays, a college professor, provide honest, humorous, and helpful suggestions to help readers thrive. Focusing on more than just success in the workplace, the authors offer ten easy-to-follow strategies and practical advice for all points of life—from time management at home and at work to making friends in a new city to budgeting. The book also covers key generational differences, the magic of mentoring, and the millennial validation vacuum. *Life After College* will help any recent grad build a fulfilling life—in and out of the office. There is so much more to being happy and healthy post-college than getting a job, and anyone looking to successfully adjust to life beyond college needs to read *Life After College*.
